

Toilet Rebate Program Guidelines

The Village of Clive Council approved a Toilet Rebate Incentive Program to become effective January 1, 2011.

Residents are being offered this incentive to reduce water consumption by replacing old water-wasting toilets with low volume toilets.

This program will offer a \$50 per toilet rebate when an old traditional 13 to 20 litre toilet is replaced with a low flow 6 litre (or less) toilet.

Rebate Program Guidelines

- Only 25 rebates will be allowed each year on a first come, first served basis. Any applications over 25 will be put forward onto a list for the next year.
- Toilets must be purchased **on or after** January 1, 2011.
- Applications will be processed in the order they are received.
- Each household will be allowed a maximum of two replacement rebates.
- New construction and new basement development will NOT be considered for the program. It must be a replacement toilet.
- Proof of installation is required in the form of a receipt, a picture of the old toilet in the bathroom and a picture of the new toilet in the bathroom after installation.
- If your application is approved, your utility account will be credited for the rebate amount.
- In order to be eligible, your utility account with the Village of Clive must be in good standing.
- This program is limited to residential Village of Clive Utility Account customers.
- If you are a renting your residence, you need to have the owner of the home submit the application and other supporting documents.
- Complete this application form and attach a copy of the receipt (the receipt must be dated for the current year and clearly identify the toilet purchase).
- The maximum rebate is \$50 per toilet, not to exceed the cost of the toilet (including other rebates).
- The old toilets cannot be kept, reused or donated since the purpose of the rebate program is to promote water conservation. The program requires disposal of the high volume toilets to ensure these toilets are no longer in circulation.
- The Village reserves the right to make random inspections of participating homes. Residents will be contacted in advance to schedule a convenient time for us to verify that the declared toilets have been installed.
